ABOUT BRENDA

Ms. Clotfelter brings 45+ years of experience in information systems implementation, including 14 years as Project Manager for the State of Florida's EMS Information System.

She combines deep practitioner expertise with extensive consulting experience in planning, managing, and implementing business and technology solutions for public and private sector organizations. As a practitioner, she delivers strong leadership, applies industry best practices, and consistently achieves quality outcomes in technology implementations and organizational improvement initiatives. As a management consultant, she has advised numerous clients on strategic positioning, organizational change, process re-engineering, transformation and development, IT assessments, planning, and project management. Ms. Clotfelter is known for her analytical rigor, organizational and planning skills, and core project management strengths. She is passionate about facilitating, mentoring, and building high-performance teams and organizations.
