PANEL

Facilitated by Kendra Siler · with Matthew Thompson, Jeremy Coombs, Cara Gluck, Scott Cales

FRI, DEC 11
1:30–2pm

Conditions for Clarity: Designing Environments That Reduce Cognitive Noise

ABOUT KEVIN

With a background spanning transportation planning, mobility innovation, geographic information systems, and public-sector operations, Kevin Salzer, MSP, AICP has dedicated his career to solving complex challenges related to how people, services, and communities connect.

Prior to joining CommHIT, Salzer served in leadership and planning roles with the Jacksonville Transportation Authority, the Center for Urban Transportation Research at the University of South Florida, and other organizations focused on public transportation and community infrastructure. His work has included transportation innovation, transit planning, mobility systems, and the application of data-driven approaches to improve access and service delivery. Salzer leads CommHIT Everywhere's transportation and logistics efforts. His work includes planning mobile health routes, coordinating operational logistics, and helping connect patients, providers, pharmacies, and community resources across rural regions. By addressing one of the most persistent barriers to healthcare access, transportation, Salzer helps connect rural residents to community pharmacies, mobile health services, healthcare providers, and other essential resources throughout their region. Salzer holds a Master of Science in Urban and Regional Planning from Florida State University and a Bachelor of Arts in Anthropology from the University of North Florida.
