THU, DEC 10
10:15–11:15am

Connecting Care for Stronger Communities Panel PANEL

Facilitator · with Antraneise Jackson, Jaime Bustos, Brenda Clotfelter

ABOUT PAM

Pamela King, MBA, CPM, PMP, serves as Administrator for Florida's Health Information Exchange (Florida HIE) within the Florida Agency for Health Care Administration (AHCA).

With 30+ years of experience in healthcare administration and health information exchange, she leads statewide efforts to improve the secure sharing of health information, advance interoperability, and support technology adoption across Florida's healthcare system. As administrator of the Florida HIE, Pamela oversees programs that help healthcare providers, hospitals, payers, and community organizations exchange timely health information, supporting better care coordination and more informed decision-making. Her work focuses on strategic planning, stakeholder engagement, and building the infrastructure needed to ensure health information is available where and when it is needed. Florida's Rural Health Transformation Program relies on health information exchange as a foundational component of connected care. Through CommHIT Everywhere and other rural health initiatives, Pamela's work helps extend the benefits of interoperability into rural communities, ensuring providers have access to the information needed to coordinate care across settings and improve outcomes for Floridians.
